If a penalty kick is awarded during overtime, a goalkeeper will be used to defend the goal. The ball is not playable after the penalty kick is touched by the keeper or out of play or scored. If a goal is not scored, a goal kick will be used for a restart. The goalkeeper may be any player (on the field or not). If the kick is not successful goalkeeper will be removed from goal prior to restart.

Only players on the field at the end of regulation may stay on the field for the first overtime including goalie. If game is still tied after 5 minutes referee will stop play for substitution. All players on the field must be substituted if team has enough players. If after 5 additional minutes game is still tied the game will stop again for substitution. Players that remained from first substitution must be substituted and players from bench that have not played must be used until all players have played at least one overtime period. Game will be restarted with either a drop kick at place play was stopped or with appropriate restart if play was stopped during a natural stoppage.

All referee decisions are final. Protests are not permitted.
